

EMIL BAUER

ROTER VELTLINER WAGRAM DAC

VINEYARD

This Roter Veltliner thrives around our Village in the Ried Marienberg and Steinthal. Our grapevines grow on rich Loess soil, which is a very fertile soil type, the products from vines planted on loess soil have a fine minerality. Combined with the ripeness and fruit that result from the optimal location, this is the starting point for excellent wines. We call the Roten Veltliner the Diva of the white wines, that wants to be looked after and that wants to be taken care.

VINIFICATION

Destemmed

12 hours of maceration on the skins

Gentle pressed

Spontaneous fermentation

90% matured in stainless steel
